# REVO 2500W

## CORRUGATED DIGITAL INKJET PRINTER

Revo 2500W Pro  
Upgraded Version: The new inline design saves labor and reduces processes  
More outstanding performance improves the competitiveness of packaging printing

### Productivity Breakthrough

Fast production is achieved with productivity fully increased to 1300m<sup>2</sup>/hr

### Wider Application

Water-based waterproof ink is used for smooth printing on high-quality coated board

### Intelligent Board Feeding

It assists large-scale automated production for post-pressing

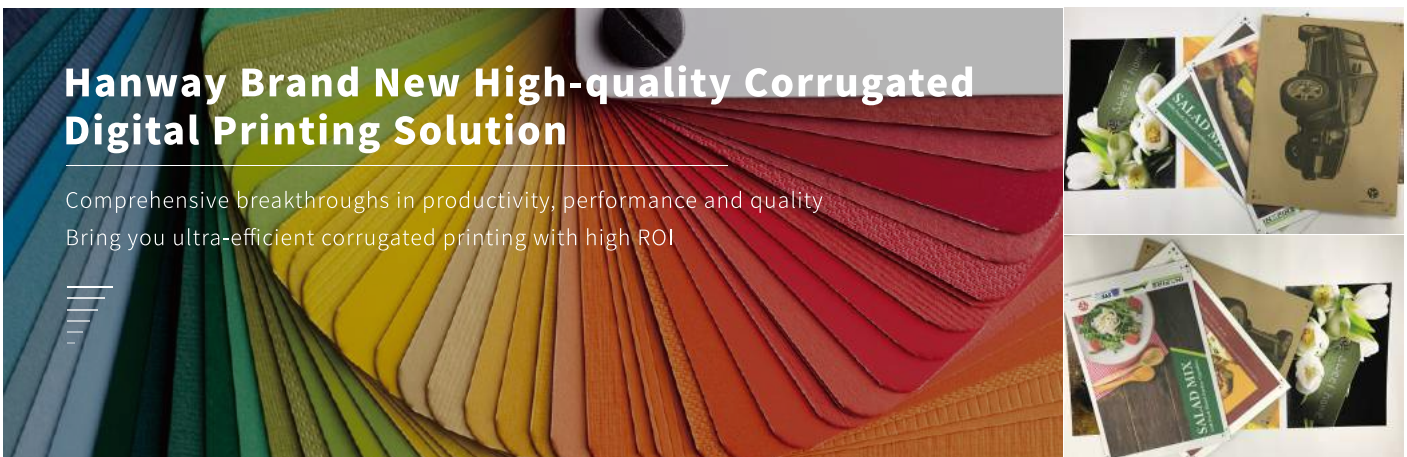

### Higher Value

Variable data printing facilitates on-demand production and efficient job management
